

TREMCO

Tremco Incorporated is a passport provider of AIA/CES programs.
Provider number: J157

TR1. Roofing Options: Alternative Roofing Systems

A review of the different roof systems; Provides a basic examination of their strengths and weaknesses and industry statistics concerning their performance characteristics.

TR2. Cold Process Roofing

An introduction to cold asphalt technology and cold process roofing systems: Offers a basic description of the process and how it differs compared to hot asphalt systems.

TR3. Modified Bitumen Roofing

An introduction to modified bitumen roof systems. Discusses the different materials used in manufacturing the components and how it relates to their performance characteristics of the system.

TR4. Single Ply Roofing

An introduction to the different types of single ply membranes used in low slope roofing. Identifies the different materials available on the market and discusses the performance characteristics of each.

TR7. Metal Roof Systems

An introduction to metal roofing systems; offering a basic description of the materials used and the performance characteristics of each.

TRM002. The Importance of Quality Detailing

A discussion of the complexities of flashing details as they pertain to different roofing systems. Provides procedures on how to improve the quality of the roofing system by making minor upgrades to the specifications.

TRM003. Codes and Approvals

Discusses how codes and approvals can improve the quality and performance of a specified roof system. Reviews UL (Underwriters Laboratories) and FM (Factory Mutual) codes and approvals that pertain to roofing.

TRM011. Roof Warranties

Discusses what is covered or not covered in a roof warranty. Provides methods on how to specify a roof with long-term reliability.

TRM012. Minimizing Professional Liability with Roofing

A discussion on the main causes of roofing related litigation and examples of what professionals can do to ensure that they are minimizing their exposure to roofing related problems.

Tremco offers AIA/CES seminars, which can be presented by our Field Advisors to small groups of architects/specifiers at association meetings or their offices. These seminars provide 1 HS&W Learning Unit (LU) Hour. To schedule a Tremco sponsored AIA/CES seminar, please call:
